

# Skyline Installation

## Fabricating RollEase Skyline™ Double (Vertical or Horizontal Mount) Brackets

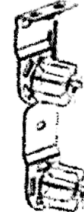

1. Inside mount deductions for the Double Bracket are the same as the regular brackets.  
(see chart on opposite side). **Vertical Brackets:** The upper shade must be a reverse roll shade (rolls off on room side) and the lower shade needs to be a standard roll shade (rolls off towards window). **Horizontal Brackets:** Shades can be mounted in any combination (front roll/reverse roll) Double Shades may also share a center bracket as show in the illustration, (see shared bracket deductions chart opposite side)
